- (B) 2 x Fred EZ-Dock™

Important!

Fred wants to keep you and your family safe but we need you to do your bit, please read and follow these instructions carefully. Once your product has been installed, please keep these instructions in a safe place for future reference.

Step by step video fitting guides at www.fredsafety.co.uk

Step by step installation guide

We recommend that the Door Slam Stopper is fitted on the top horizontal edge of the door. If it is fitted on the vertical edge of the door, ensure it is high up well out of reach of your children.

Recommended Usage

Use on top of doors

Use on side of doors

The Door Slam Stopper (A) is designed to fit interior doors with a thickness of 30-45mm.

Important: With the Door Slam Stopper in place, finger-traps will be reduced, but not eliminated on the hinge side. Please ensure children do not insert fingers into hinged edges of doors.

Clamp the Door Slam Stopper onto the top edge of your door, at least 35cm from the hinged side. This is the preferred position as the door remains wider open, reducing finger-traps.

The Door Slam Stopper can also be fitted on the opening side of the door. In this position, the door will not be held as wide open, so more finger-traps at the hinge could be present. When fitting to the side, position the Door Slam Stopper high, out of reach of children.

Important: Your door/hinge could be damaged if the Door Slam Stopper is positioned closer than 35cm to the hinged edge.

1 How to store

Fred SecureHold™ adhesive is instantly strong. It cannot be repositioned when placed incorrectly so test each step first, **without** exposing the adhesive. Before installation, clean and dry the surface with a 50:50 solution of water plus white vinegar or surgical spirit.

2

Remove the protective layer from the EZ-Dock™ (B).

3

Push the sticky side firmly into place for 30 seconds. Leave for 24 hours prior to first use.

4

Simply pull the Door Slam Stopper off the door and press it onto the EZ-Dock™ when not in use.

5

Fire Officers recommend that **all** doors are closed at night as a precaution. While the door is shut, keep the Door Slam Stopper on the EZ-Dock™ and you will always know where it is.

To permanently remove

Use a blunt knife to gently prise the EZ-Dock™ off the wall when you no longer need it, and rub away any residual adhesive.

⚠ Safety Warnings

- **WARNING!** Adult assembly required.
- **ATTENTION!** This product acts as a deterrent but cannot replace adult supervision. Never leave children unattended. This is not a toy, do not allow children to play with it.
- Check the product regularly to ensure it is safe to use and working correctly. If worn or damaged, remove immediately and replace as needed.
- This product is designed to offer protection for children up to the age of approximately 24 months.
- If your child has learnt how to remove the product, stop using it immediately.
- **Caution!** Do not use at night. Fire officers recommend that **all** doors are kept shut at night.
- Never use a Door Slam Stopper on fire doors.

Other Important Information

- **Care instructions:** Wipe with a damp cloth. Do not immerse this product in water.
- **Caution!** Fred SecureHold™ adhesive may cause damage to some surfaces. We accept no liability or responsibility for damage or defects arising from the use of the adhesive on any furniture or surfaces.
- Occasionally, you will need to use a 50:50 mix of water plus either white vinegar or surgical spirit to remove adhesive residue. This mix could cause damage to some surfaces, so please test its use on a discreet area first. We do not accept any liability for damage so caused.
- Claims against warranties or guarantees must be arranged through your retailer, seller or trader. Proof of original purchase is required.

Carefully designed, top quality products for protecting against falls, finger-traps, electric shocks, burns and access to dangerous objects are what Fred is all about.
